

Deck Floodlights

Model 8505

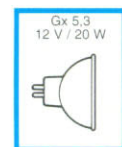

Deck floodlight with special housing combined with masthead lamp **62242**. Application for boats with lengths <12 m. The light distribution has been adapted to the special requirements on smaller sail boats using the FF reflector. The flexible mounting lugs allow simple and quick mounting on any mast profile. With halogen cool-beam reflector lamp (12V/20W) for deck illumination, with cover to protect bulb against damp and dirt. All metal parts stainless steel. Bulb easy to replace through opening in cover (with less guard).
